COLLECTION SITES NATIONWIDE	STATES AND PUERTO RICO	WALK-IN CLINICS IN NY AND NJ	NEW EMPLOYER COMPANIES

Dear friends and clients,

Thank you for a strong 2026. Our goal this year was to make occupational health simple for employers: one portal, one point of contact, and compliance handled from order to result. Your trust made that possible, and it allowed us to welcome more than 30 new employer companies in October and November alone.

In this report we outline the goals that guide our work, how our regional walk-in clinics work alongside our national network, our new sites including Puerto Rico, our consortium and Clearinghouse services, and our priorities for 2027.

Whatever your fleet or workforce looks like, we are glad to be on your team. We wish you and yours a safe and happy holiday season.

The WorkOccMed team

With appreciation,

Chantal Gabriel, MD
Medical Director
On behalf of the WorkOccMed leadership team

OUR PURPOSE

Our goals

Employers should not need a compliance department to keep their people tested, cleared, and working. Four goals guide every service we offer.

1

Maintain compliance

DOT, FMCSA Clearinghouse and random testing requirements managed on your behalf, with audit-ready records in one place.

2

Centralize management

Order tests, track progress, and download results from a single employer portal.

3

Deliver quickly

Authorizations in about one hour during business hours, and most negative drug screens within 24 to 48 hours.

4

Support every step

One point of contact from order to result, by phone at (888) 233-4567 or by email, so you are never left guessing.

NETWORK

Regional walk-in clinic access

New in 2026

New this year, WorkOccMed provides employers with access to an established network of more than 170 walk-in clinic locations throughout the New York and New Jersey region, complementing our nationwide collection network.

Employees benefit from convenient locations, walk-in availability, and streamlined authorizations through WorkOccMed. All clinics in our network are independent providers.

Benefits for employers

- ✓ Faster scheduling for teams in NY and NJ
- ✓ Orders placed in our portal, with results returned to you
- ✓ Advanced centers for breath alcohol testing, pulmonary function tests, and other specialized services

A DOT physical exam. Outside NY and NJ, employees use the nearest certified site in our network.

1 **Sign in**
portal.workoccmed.com

2 **Choose a service**
and add your employee

3 **Pick a nearby site**
we send the authorization

4 **Track the result**
right in your portal

GROWING WITH YOU

New sites in our network

Old San Juan, Puerto Rico

This year we added new collection and clinic locations, including our first sites in **Puerto Rico**. Employers with teams on the island can now order the same services through the same portal.

- ✓ Shorter travel and wait times for employees
- ✓ More same-day options for DOT physicals
- ✓ Coverage for teams across several states and Puerto Rico

Clinics in our network are independent providers. Own or operate a clinic? You can apply to join our network through our website.

COMPLIANCE, HANDLED FOR YOU

Consortium and Clearinghouse

DOT consortium and random testing

We manage your random drug and alcohol testing pool: selections, driver and employer notices, and records that are ready for an audit.

FMCSA Clearinghouse queries

We run pre-employment and annual limited queries for your drivers, with a simple consent form and no extra logins for you to juggle.

The Premium plan. For single-driver businesses, Premium bundles consortium enrollment with Clearinghouse queries, so the whole DOT program is covered in one place.

WE COME TO YOU

Onsite and mobile services

Some workforces cannot spare a whole crew for a trip to the clinic. We are building our onsite and mobile services in step with the companies we bring on board, so each new company we bring on board helps shape where we go and what we offer.

Onsite and mobile services are provided by independent service providers.

Drug & alcohol testing · Pre-employment screenings · Vaccinations · Titer testing · Audiograms · Respirator fit testing

LOOKING AHEAD

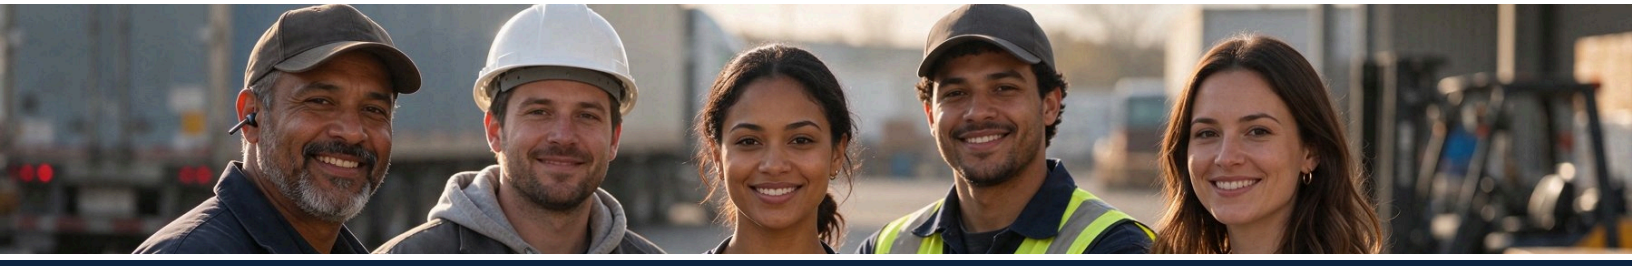

Our priorities for 2027

1. **Expand our network**
   Add collection sites and independent clinics, including more of Puerto Rico, where employers want shorter travel.
2. **Build out onsite and mobile services**
   More service types, wider coverage, and more scheduling options for group testing and hiring events.
3. **Improve the employer portal**
   Choose your collection site when you order, with quicker authorizations and clearer order tracking.
4. **Add regional management staff**
   Add regional managers so every region has a dedicated contact who knows your area and your clinics.
5. **Keep you ahead of rule changes**
   Plain-language updates on DOT and FMCSA changes, plus random testing support for employers of every size.

YEAR-END CHECKLIST

Five things to do before January

- ✓ **Annual Clearinghouse queries.** Every CDL driver needs one every 12 months. We can run them.
- ✓ **DOT medical cards.** Check expiration dates and book renewals now, before holiday hours begin.
- ✓ **Consortium driver list.** Add new hires and remove drivers who left so your pool is correct.
- ✓ **January hiring.** Order pre-employment drug screens early so new drivers can start on time.
- ✓ **Contact details.** Confirm your designated employer representative and email are current.

WITH APPRECIATION

Thank you for 2026

To every employer, fleet manager, HR team, driver, and clinic who worked with us this year, including the more than 30 employer companies who joined this fall: thank you. Your feedback shapes what we build next, and your trust is what drives our work. We wish you a wonderful holiday season, and a safe, healthy, and successful 2027.
